**Safety Cast Corp.
11265 Alumni Way, Suite 201
Jacksonville, FL 32246
(904) 998-7744/Fax: 904-998-1289
Contact: Robin Wilson**

Safety Cast Corporation is an international safety warning equipment company focused on providing innovative products and systems that greatly enhance public safety. Utilized by the police, fire, rescue, rail industry, military and government, Safety Cast transmits a prerecorded emergency or an 'ad hoc' all hazard alert message directly into a motorist's radio, SafetyCube (small personal home/office receiver) or SafetyKey (key chain). This message is broadcast over all AM or FM channels simultaneously allowing for a proactive, controlled response from the community. www.safetycast.com

**Safety through Cellular
1058 Redmont Ave #101
Atlanta, GA 30309
(404) 685-0949
Contact: Bonie Lamb**

STC has designed and patented an Early Alert Receiver (EAR) device as well as supporting software systems. This device takes advantage of standardized digital cellular interfaces to provide immediate notification of emergency situations to the public. The Early Alert Receiver is a device capable of multilevel alerting when triggered by the receipt of a properly formatted digital cellular broadcast message. The system allows distribution of information not only from federal entities, but also via specially developed PC software. Using this software, messages can be dispatched by local agencies, police departments or other emergency service groups. By creating closed user groups of specially programmed receiver units, the system can be used to dispatch government troops, volunteer fire departments or other agencies. www.safetythroughcellular.com

**SatStream Systems Corporation
2-2599 Cedar Park Place**

Abbotsford, BC V2T 2S4
604-859-5528/Fax: 604-859-5529
